1 Introduction

This document defines the migration procedure for OpenPeppol Service Providers to migrate from Peppol SMP specification v1.2.0 to Peppol SMP specification v1.3.0.

According to the OpenPeppol Internal Regulations it is a “Network specification, minor release” and such Peppol Service Providers need to get at least 6 months implementation time.

2 Timeline

The Migration Period for the Peppol SMP specification v1.3.0 starts on December 1st, 2023 and ends on June 1st, 2024 – the Migration Period has a duration of exactly 6 months.

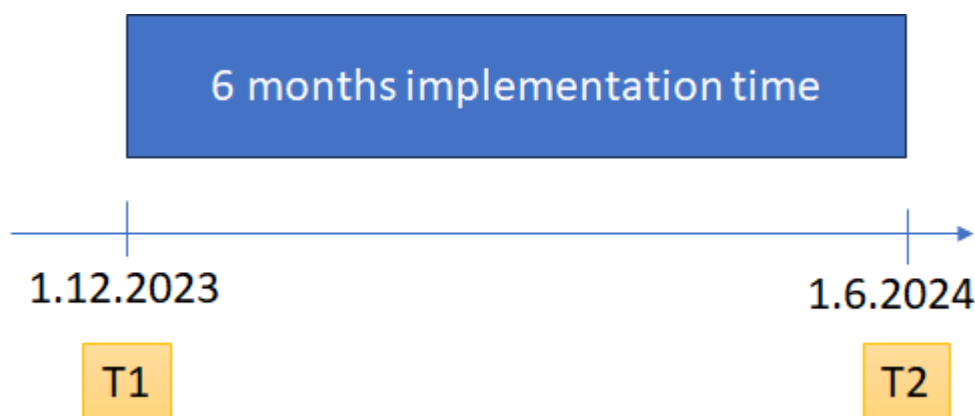

Figure 1: Migration timeline

The Migration Period contains two milestones that are described below.

2.1 Milestone T1 – December 1st, 2023

The Migration Period start date.

From that date on SMP servers MAY start using the new specification.

From that date on SMP clients MUST be able to support the new specification. Please see the SMP 1.3.0 Impact Analysis document for details.

2.2 Milestone T2 – June 1st, 2024

The Migration Period end date.

From that date on SMP servers MUST use the new specification.
